SUBJECT INDEX

A

Abstract(s)
  how to write, 98
American Heart Association
  antibiotic prophylaxis recommendations
    for dental procedures in adults, 53
  Council on Cardiovascular Nursing, 70
Anorexia nervosa
  cardiovascular complications of, 137
Arrhythmia(s). *See also* Tachycardia(s)
  sleep pattern disturbances and in cardiac patients, 73
  Atrial natriuretic factor (ANF), 39

B

Bacterial endocarditis. *See* Infective endocarditis
Bedpan
  defecation using
    effects of posture on heart rate and oxygen consumption during, 7

C

Cardiac rehabilitation
  relationship of social support
    systems, health locus of control, health value orientation and wellness motivation during, 143
Cardiac surgery. *See also* Coronary artery bypass surgery
  in elderly
    recovery after, 54
  sexual and social activity after, 93
Cardiovascular nursing
  master's programs in, 112
Child(ren). *See also* Newborn(s)
  obesity in
    factors associated with, among Mexican-Americans, 27
Commode
  defecation using
    heart rate and oxygen consumption during, 7
Congenital heart disease
  Fontan repair for
    long-term outcomes after, 19
Constrictive pericarditis, 122
Coping
  by spouses of critically-ill patients
    assessment of, 1
Coronary artery bypass surgery. *See also* Cardiac surgery
  fatigue after, 106
  patient and spouse learning needs during recovery from, 62
Council on Cardiovascular Nursing of American Heart Association, 70
Critically ill patient(s)
  informed consent in research involving, 89
  spouses of
    assessment of coping by, 1

D

Defecation
  effects of posture on heart rate and oxygen consumption during, 7

E

Economic issues
  effects on cardiovascular nursing (editorial), 37
Editorial(s), 37
Education
  master's programs in cardiovascular nursing, 112
Elderly
  cardiac surgery in recovery after, 54
Electrolyte balance
  atrial natriuretic factor in, 39
Endocarditis. *See* Infective endocarditis

F

Fatigue
  after cardiac surgery, 106
Fluid balance
  atrial natriuretic factor in, 39
Fontan repair
  long-term patient outcomes after, 19

H

Health locus of control
  wellness motivation and in cardiac rehabilitation, 143
Health value orientation
  wellness motivation and in cardiac rehabilitation, 143
Heart rate
  during defecation
    effects of posture on, 7
Heart transplantation
  in very early infancy
    noninvasive parameters for determining rejection after, 13

I

Infant(s). *See* Newborn(s)
Infective endocarditis
  AHA recommended antibiotic prophylaxis for dental procedures in adults, 53
  nursing care and prevention of, 45
Informed consent
  in research on critically ill patients, 89
Ischemia
  lower limb
    nursing management of patient with, 115

  AHA recommended antibiotic prophylaxis for dental procedures in adults, 53
  nursing care and prevention of, 45
Informed consent
  in research on critically ill patients, 89
Ischemia
  lower limb
    nursing management of patient with, 115

L

Laser treatment
  for peripheral vascular disease
    implication for nursing care, 81
Learning need(s)
  of patients and spouses during coronary artery bypass recovery, 62
Limb(s)
  ischemic
    nursing management of patient with, 115

M

Mexican-American child(ren)
  obesity in
    factors associated with, 27
Motivation
  in cardiac rehabilitation
    relationship of social support systems, health locus of control and health value orientation to, 143
Myocardial infarction
  recovery after
    perceived stressful life events and, 153
  rehabilitation after. *See* Cardiac rehabilitation
  thrombolytic therapy for, with recombinant tissue plasminogen activator, 128

N

Newborn(s)
  heart transplantation in
    noninvasive parameters for determining rejection after, 13
Notices, 31, 71, 114, 158

O

Obesity
  in Mexican-American preschool children
    factors associated with, 27
Oxygen consumption
  during defecation
    effects of posture on, 7

P

Pericarditis
  constrictive, 122
Peripheral vascular disease
  laser treatment for
    implications for nursing care, 81
Posture
  heart rate and oxygen consumption and
    during defecation, 7
Professionalism
  perceived
    work conduct and, 32

R

Recombinant tissue plasminogen activator
  thrombolytic therapy with
    for myocardial infarction, 128
Rejection
  noninvasive parameters for determining
    in newborn heart transplant patients, 13
Research
  on critically ill patients
    informed consent in, 89
  writing abstracts, 98

S

Sexual activity
  after cardiac surgery, 93
Sleep pattern disturbances
  arrhythmias and
    in cardiac patients, 73
Social activity
  after cardiac surgery, 93
Social support system(s)
  wellness motivation and
    in cardiac rehabilitation, 143
Spouse(s)
  of coronary artery bypass patients
    learning needs during recovery, 62
  of critically ill patients
    assessing coping status of, 1
Stressful life event(s)
  perceived
    recovery after myocardial infarction and, 153

T

Tachycardia(s)
  wide QRS complex
    differentiation of, 101
Thrombolysis in Myocardial Infarction Trial
  phase I and phase IIa results, 128
Thrombolytic therapy
  for myocardial infarction
    recombinant tissue plasminogen activator for, 128
Transplantation. *See* Heart transplantation

W

Work conduct
  quiz for rating, 32
